## Chapter 1 by SuperFolder Ghostbuster

A long time ago, in the very multiverse that we live in...

A Sith lord by the name of Darth Edris has broken the dimensional barriers and no longer lives in the galaxy she once lived in. No one thinks that they would ever hear from her again. 5 years later from her disappearance, she built a new portal, but this time, more stable, and won't strand her in the dimension she enters. She is on a mission to obtain a powerful rock and mutate it so that it could create crystalline buildings. She is on the hunt for a shard of Kryptonite.

Seeing as this is 3000 years before the Battle of Yavin (Forgot to mention that), that also means that Krypton hasn't exploded yet. Edris build a suit for herself along with her two young princesses so that the gravity and red sun of Krypton won't harm her in any way. As she enters the portal, she finds a white wasteland, or that is what she thinks as she finds civilization, and that civilization must be what she is looking for in order to obtain her rock.

### \*Jor-El and Kal-El must not be involved because they aren't born yet\*

As she scoured the planet, she saw an observatory with the materials she needed. If she could just get a hold of those minerals, then she could infuse them with the Dark Side of the Force and build dangerous weaponry that could have her become ruler of the Multiverse.

But then, as she was pondering her plans, she was spotted by kryptonian general Far-Ex. Far-Ex and his men were ready to fire their weaponry at the strange being that they've never catalogued before. "What kind of life form is this?" all the soldiers thought to themselves, but as they were

Edris quickly dived below and rolled between two of Far-Ex's men, killing them both as she passed. She made quick work of the next three men as well. But as she came to Far-Ex, something in his eyes made her stop. She tried to stop herself, but the next thing she knew he had grabbed her wrists, and she dropped her lightsaber.

Far-Ex handcuffed her and knocked her out, causing her to be rendered (currently) harmless. The next thing Edris knew, she was on trial before a Kryptonite court.

## Chapter 4 by Soundstriker

"You are here-by guilty of murder of Capital Guards, assault on a municipal officer, and being weird. I sentence you to DEATH!" booms the judge. Edris would not stand for that. She broke the handcuffs with her lightsaber that Far-Ex put back in her possession again, and flew around the room in a deadly, whirling typhoon of light. She shot up to the judge's stand, and with her lightsaber at the judge's neck, she calmly said, "Nobody move, or the judge and everyone else in here dies."

## Chapter 5 by Soundstriker

"Calm down Edris." said Far-Ex calmly. "Don't tell me what to do!" was her reply. A strange force overwhelmed Edris and she found herself pushing her blade farther and farther towards the judge's neck. "Embrace the Dark Side." rang a voice in her head. In the midst of it all she did not notice the judge's limp body fall to the floor. "Open fire!" Far-Ex ordered his troops. Before a single blast hit her, the voice said "Come, and show me what you can do." In an instant, Edris vanished while the voice laughed, and laughed in amusement.
